## NOVI SAD TALKING

The application called “Novi Sad Talking” can be downloaded free of charge from Google Play Store on your “smart phone”. Using the audio guide you can learn about Novi Sad and its significant sites. “Looking” through the camera on your phone you can determine the direction and recognise the building or site/location you wish to visit. With the assistance of old photographs, text and audio recordings you can walk around Novi Sad through centuries and learn about its largest cultural-historical attractions, monuments, institutions, religious sites. “Novi Sad Talking” application is designed for two most widely spread platforms Android and iOS. It supports models with 2.3 “Gingerbread” and models of the latest generations, as well as iOS 5.0 and models of new generation.

## Welcome to Novi Sad

BISHOP'S PALACE

the city rich with tradition and culture, and the city where cultural heritage is preserved as carefully as a relaxed atmosphere. This city can be proud of the epithet of multinational, multicultural, and multiconfessional capital. This is where differences and diversities are understood as advantages. Novi Sad is also the city of science and art. At the Novi Sad University there are nineteen faculties, Association of Centres for Interdisciplinary and Multidisciplinary Studies and Researches, and specialised institutes and departments. In addition, the city has many museums and galleries where numerous cultural events, exhibitions and displays are organised. The city centre with attractive old city core, and prestigious Novi Sad Fair is the host of many world known festivals and events. Being positioned on the Danube, with the Fortress the building of which was completed in the 18<sup>th</sup> century, Novi Sad is located at the cross-roads of most important traffic lines, in the vicinity of the “holly” Fruška Gora. The city hinterland reveals salaš farmsteads, Fruška Gora wine region, and National Park “Fruška Gora” providing the precondition for enjoyment with all senses.

You can reach Novi Sad

\*by car: it is located on E-75 and E-70 highways

\*by plane: “Nikola Tesla” Airport in Belgrade is at the distance of 70 km from Novi Sad,

\*by train: Novi Sad is one of the stops on Vienna-Budapest-Belgrade-Istanbul railroad,

\*by ship: navigating along the Danube.

## PETROVARADIN FORTRESS

The Fortress is divided into Upper and Lower Town (suburbium). Petrovaradin Fortress was built based on the idea of the marquis Sebastian Voban. One of the symbols of Novi Sad, the Clock Tower, was built at the site of an old, destroyed clock by the middle of the 18<sup>th</sup> century. The diameter of the clock exceeds 2 meters, and faces are placed at all four cardinal points. It is interesting to note that hours are written in Roman figures while the hands are oriented opposite i.e. the large one shows hours and the small one shows minutes in order to see the time from the Danube even when it is foggy. The compass and weather vane with a heart on the on mast instead of a spear are placed on the top of the Tower. The City Museum of Novi Sad is another significant site at the Fortress. This is where the visitors can see two permanent exhibitions: “Petrovaradin Fortress in the past”, and “Novi Sad from the 18<sup>th</sup> to 20<sup>th</sup> century”. The guide service of the City Museum of Novi Sad organises tours around the underground military galleries (tunnels) that are arranged for organised visits in the length of 800 m.
