

"FOUR LIONS" FOUNTAIN

WELCOME TO SREMSKI KARLOVCI a city of Serbian culture and spirituality

Sremski Karlovci, a city where bells ring like they do in Florence, where Latin is still being taught, where there is still some gentlemanly social politeness, where people still rest in front of their houses, where courtesy and hospitality reign.

This is a phoenix of a city throughout history, a place where significant historical events took place, where many famous persons of our nation lived. For many years, the cultural center and spiritual center of Serbs in Hungary and the first bridge between Serbian Orthodoxy and Western Latin education.

From this perspective, Karlovci is still best seen today from atop its five bell towers, from its roofs, crooked side alleys and surrounding hills under vineyards.

VITICULTURE AND WINEMAKING

The tradition of viticulture in the Fruška Gora part of Srem dates back to the Roman period. Over the centuries, Karlovci has been a famous wine center, whose wines have gained a worldwide reputation. Particularly famous and praised was the Karlovci Bermet, an authentic wine of this region, which traders exported to the United States as far back as 150 years. The quality and beauty of this wine is perhaps best evidenced by the fact that Bermet was on the wine list of the Titanic. Today, Sremski Karlovci are struggling to regain at least a fraction of their old glory, and when visiting Karlovci, you should never bypass the numerous cellars of local Karlovci winemakers and you should try the famous Karlovci wines, among which Bermet still occupies the most important place today.
